

Dear Parents,

We have just completed **TechnoArt**. In this project, campers stretched the limits of their imagination by producing fabulous pieces of artwork using the power of technology. Paintings by famous artists in the styles of Cubism, De Stijl, and Impressionism were the fuel for igniting campers to produce their own art style. What they called it was up to them! Each original artwork was hung in a *Techno* gallery right beside those painted by renowned artists. I am certain you will want to view this magnificent collection!

Students acquired and enhanced the following technical skills:

Graphics

- draw freehand
- paint with a brush or airbrush
- add text to a text box
- draw shapes and lines
- erase parts of a picture
- fill an area with color
- copy a color to the palette
- select an area
- copy and paste a selection
- magnify an area
- make a selection transparent
- select paint tool options
- resize the drawing area
- create a custom color palette

Operating Environment

- open and close a program
- save a document
- make a copy of the original picture using *Save As*
- adjust print settings

Word Processing

- draw shapes
- scale, move, and rotate an object
- format shapes using preset styles
- format the fill, outline, shadow and 3-D effects of shapes
- delete an object
- adjust object order

Multimedia

- delete slides
- add text to a slide
- apply a design to the slide show
- insert a picture onto a slide
- resize and relocate slide objects
- animate slide objects
- view the slides in slide view, slide sorter view and slide show view
- apply transitions between slides

We look forward to seeing your child again at TechnoCamp.
