

Bake Sale Report

TechnoSchool is having a bake sale to raise money for new books for the library. This sale is going to be a big success!

Cupcakes are going to be sold at the bake sale. This is because they are liked by most of the students. There are going to be many chocolate cupcakes with chocolate icing and chocolate cupcakes with white icing because these are the most popular with students. However, there will only be a few vanilla cupcakes with white icing because this flavor is not very popular.

The goal is to earn \$89 from the bake sale. This goal was picked because it is the average money earned from past sales.

To reach this goal, each item will be sold for 30 cents. We plan to have 300 customers at the sale. We need to sell 300 items to reach the goal.

We need many cupcakes. Each person in the class is going to help. Each person will bring to the sale 12 items.

I am making posters for the sale. I plan to put them up around the school to let students know about the fundraiser. I think the bake sale is going to be very successful.
