

Sample Trivia Quiz

In TechnoTrivia, students design a fun trivia quiz. Using Google Forms, they test their friend's knowledge about a topic. There is no need to keep score, since an automated system calculates points for each person and sends the results.

Google Forms totals the score.

The quiz should be fun! Each question should be interesting.

Feedback is given for correct or incorrect answers.

Answers to multiple choice questions can include pictures.

The screenshot shows a Google Form titled "Brain Game - Wacky Animal Quiz" with a total score of 6/6. The first question is "The cheetah is the fastest four-legged animal? What is the second fastest?" with four radio button options: Pronghorn Antelope (selected and marked correct), Blue Wildebeest, Lion, and Thomson's Gazelle. A feedback box below provides information about cheetah and pronghorn speeds. The second question is "Which animal does not drink water?" with three image-based options: Camel, Kangaroo Rat (selected and marked correct), and Jack Rabbit. A feedback box below explains that kangaroo rats obtain water from dry seeds.

A theme is applied to the trivia quiz.

Each question is worth points.

The correct answer is set. The correct answer should be difficult to pick.

Questions are required.

✓ How long does it take before a baby is born? Pick the two animals that have the longest pregnancy. * 2/2

Grant's Zebra

Sperm Whale ✓

African Elephant ✓

Sea Lion

Feedback

Terrific! You really know your wacky animal facts! The African Elephant and Sperm Whale have the longest gestation period. An African Elephant will take about 20 months before having a calf. A Sperm Whale takes about 17 months before giving birth. Grant's Zebras and Sea Lions take about one year before they are born.

A checkbox question type allows more than one answer to be picked.

✓ True or False? The proboscis monkey can die if it eats ripe fruit? * 1/1

proboscis monkey

1. True ✓

2. False

Feedback

Great job! It is true! The proboscis monkey eats unripe fruit. The sugar in ripe fruit can cause bloating which may result in death.

A picture can illustrate a question.

True or false answers suit a dropdown question type.

✓ What is the name of this animal? * 1/1

Do you know the name?

Blobfish ✓

Glopper Fish

Pink Squid

Feedback

Super! You know lots of wacky facts about animals. This animal is a blobfish. It lives in the deep sea near Australia.

A picture can have a caption.
