Session 5 Skill Review: In Jail

Review your skills. Edit a picture to make it look like a person is behind bars in *TechnoJail*.

Remove the Background from the Person Photo

1. Open a picture of a person in Photoshop. If you do not have one, then use the *girl jail* or *boy jail* photo in the *Photoshop* folder.

2. Unlock the background:
   a. Double click on the *Layer* in the Layers panel.
   b. Name the layer **person** and then click *OK*.

3. Use the *Magic Wand Tool* ✏️, *Rectangular Marquee Tool* ⬚ *Polygonal Lasso Tool* ⌁, or *Magnetic Lasso Tool* 🦋 to remove the background.

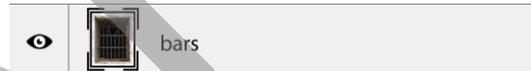

Magnify an area using the *Zoom Tool*. 🔍

4. When finished, save the picture as **person no background** as a Photoshop file.

Remove the Background from the Bars Photo

5. Open the picture **bars** in Photoshop. This file is in the *Photoshop* folder.
(Ask your teacher where this is located.)

6. Make a duplicate. From the Image menu, select *Duplicate*. Click *OK*.

7. Unlock the background:
   a. Double click on the *Layer* in the Layers panel.
   b. Name the layer **bars** and then click *OK*.

8. Use the *Magic Wand Tool* ✏️, *Rectangular Marquee Tool* ⬚ *Polygonal Lasso Tool* ⌁, or *Magnetic Lasso Tool* 🦋 to remove the background.

Magnify an area using the *Zoom Tool*. 🔍

Combine Two Pictures Together

9. From the File menu, select *Place Embedded*. Select the *person no background* picture.

10. Resize ↗, rotate ↻, and warp ⚓ the image. When you like the way the picture looks, click the *Commit transform* tool ✓.

11. Click the *Move Tool* ✛ to position the picture on the page.

12. Adjust the layers in the Layers panel to place the person <u>behind</u> bars.

13. To make the picture look more realistic, select the **person no background** layer:

    a. To soften edges, select *Blur* from the Filter menu. Select *Gaussian Blur*. Adjust the level of blur and then click *OK*.

    b. To darken the image, select *Adjustments* from the Image menu. Select *Shadows/Highlights*. Adjust the sliders and then click *OK*.

    c. Add a shadow to the image. Select Layer Style from the Layer menu. Select *Drop Shadow*. Set the options and then click *OK*.

14. Draw a cell wall:

    a. Click the Rectangle Tool ▢.
    If you cannot find the Rectangle Tool press the U key on the keyboard. Choose it from the options menu.

    b. Set **dark grey** as the Fill color from the Options bar.

    c. Draw a rectangle.

    d. Drag the Rectangle 1 layer to the bottom of the Layers panel.

15. Draw a sign:

    a. Click the *Custom Shape Tool* ⛯.

    b. Click the *Custom Shape* pop up panel. Click the *Custom Shape menu picker* ✿. Select *Banners and Awards*. If you are asked to replace the current shapes, click *OK*. Pick a banner.

    c. Pick a fill and stroke color from the Options bar.

    d. Click and drag the mouse to draw a sign.

    e. Drag the *Shape* layer above the *bars* layer.

    f. To make the sign look more realistic apply a layer style. Select *Layer Style* from the Layer menu.

16. Add letters to the sign:

    a. Click the *Horizontal Type Tool* **T**. Type **TechnoJail**.

    b. Use the tools on the Options bar to edit the font, size, alignment, color, and shape. When finished click the *Commit any current edits* tool ✓.

    c. If necessary, drag the *TechnoJail* layer above the Shapes layer.

    d. To move the text over top of the sign, click the CTRL key and then drag the text. To resize the text, select *Free Transform* from the Edit menu and then make the changes.

    e. To make the words look more realistic, apply a layer style. Select *Layer Style* from the Layer menu.

17. Save the file as **in jail** as a Photoshop file.

18. Close Photoshop.
